PREFACE

LOVERS of standard piano music have long awaited a collection which would cover comprehensively all the important fields of musical composition, including classical, modern, light and operatic selections. In this book they will find their ideals fully realized, as its scope is practically unlimited, and the number as well as variety of compositions unequalled in any previous publication of the kind.

It may be truthfully said that the possessor of "Masterpieces of Piano Music" has within it all the standard compositions one would care to permanently possess, and, as more and more use is made of its pages, there will come a fuller realization of how completely and efficiently the editor has accomplished his purpose of creating a universal piano collection.

When the age was golden, in the young world's prime.
Is thy soft pipe ringing, O lonely shepherd boy;
What song art thou singing, in thy youth and joy?
